

**Department of Natural Resources
Designation of Infested Waters**

May 7, 2009

Pursuant to the provisions of *Minnesota Statutes*, section 84D.03, subdivision 1 the following described waters in the state meet the criteria established for designating infested waters. New designations of infested waters added on May 7, 2009 are underlined and deleted text is shown with strikethrough.

A lake in more than one county is listed under the county corresponding to its protected waters inventory number, but the designation applies to the entire lake. Lake Superior and designated portions of rivers that flow through more than one county are listed under the heading Multiple Counties. Ponds and wetlands that are not on the protected waters inventory are listed with “none” in the number column. Rivers and streams on the protected waters inventory are listed without a number in the number column.
